Diverse Interactive

Front End Developer

July 2019 - March 2022
2 years, 9 months

Co-created a STEM-focused iOS app for **BAE Systems**. The app, nominated for an award, consisted of 12 games and was built using **Cordova**, **TypeScript**, **React**, **SASS**, and **Webpack**.

Took over the development of a 'base' used to rapidly generate internal eLearning courses for **BAE Systems**. Initially tasked with utilizing the base to produce courses, I later assumed full responsibility for the base itself. This project utilized **TypeScript**, **React**, **SASS**, **Node**, and **Gulp**.

Constructed an interactive, responsive, media-rich application for **GBG** as the sole developer. The application was built with **TypeScript**, **SASS**, and **Webpack**.

Assisted a senior backend developer with the development of various APIs involving **PHP**, **PostgreSQL**, **Laravel**, **Swagger**, and **dbdocs**. Tasks included the creation of migrations, endpoints, tests, and the maintenance of documentation.

Two Associates

Developer

March 2022 - April 2024
2 years, 1 month

Led the front-end development of a suite of internal services that streamline the company's day-to-day operations. Key technologies included **TypeScript**, **React**, and **Vite**.

Constructed a design system with **Storybook**, incorporating **Chromatic** for previews and **NPM** for distribution. Automated both processes using **Bitbucket** pipelines.

Responsibilities expanded to include a major contribution to the backend development, from planning to implementation. Technologies involved included **Laravel**, **PHP**, **PostgreSQL**, **Docker**, **Docsify**, **Swagger**, and **dbdocs**.

Onboarded colleagues to the project, providing training in the relevant technologies. Managed task delegation for up to three developers concurrently.
